

Huang Haihui

Curriculum Vitae

WORK EXPERIENCE

CURRENT, FROM DEC 2014

SAP INC, Shanghai
Infra Testing Framework

The framework responsible for product upgrading, client upgrading and component testing is designed to make Infra TA colleagues work more efficient, which is based on B/S framework and uses JS, C#, SQL and other techniques.

CURRENT, FROM DEC 2014

SAP INC, Shanghai
SAP Business One Auto-deployment

To make work more efficient, a CI System is developed with Jenkins, Docker and other techniques for B1 auto-deployment, which will make staffs build a B1 environment in just five minutes.

CURRENT, FROM DEC 2014

SAP INC, Shanghai
Outlook Plugin: QuickCategory for Outlook

It is inconvenient to use category in Outlook. Based on C#, I develop a plugin which make users easy to find email by category with query composition and adding categories automatically.

SEPT 2014 - OCT 2014

IDEOLOGICAL AND POLITICAL ROOM IN SJTU
Questionnaire Survey Website in SJTU

It is based on ASP.NET and imports data to MySql with Java, which provides students and teachers for completing the questionnaire that Ideological and Political Room offers.

AUG 2012 - SEPT 2012

CHANGYIHR. INC, Suzhou
Official Website for ChangyiHR: www.changyibr.com

The site is designed and implemented with the knowledge of LAMP, which is based on MVC Pattern and provides users to submit resume online. It is reconstructed by the end of 2014 using Django.

SEPT 2011 - OCT 2012

Computer Science & Engineering in Southeast University, Nanjing
Color image super-complex moment invariants and its application in video surveillance

Cooperated with teacher, I am responsible for designing and developing our lab in the project, using OpenCV to verify algorithm sift.
